VANTIQ

AI SUMMIT

Where intelligence meets action

October 1st, 2025 | Summit 9:00AM – 5:00PM | Reception 5:00 – 6:30 PM

TOP REASONS TO ATTEND

- ✓ **Learn from AI pioneers,** gain direct insights from leaders shaping the future of Agentic AI—these are the minds building the next wave of AI-powered enterprise solutions

- ✓ **Explore real-world use cases across industries,** get practical, actionable insights into how AI agents are transforming multi-agent orchestration

- ✓ **Master the strategic decisions behind Agentic AI adoption;** build vs. buy, open-source vs. closed-source, designing an AI-ready department and securing stakeholder buy-in

- ✓ **Interactive format,** live Q&A with speakers, 1:1 networking during reception with end-users, partners and founders

- ✓ **Connect with corporate strategists, technologists and AI practitioners—**all exploring how to make real-time intelligence and agentic AI scalable, secure and effective across the enterprise

AI thought leaders
you'll meet during the AI Summit

Marty Sprinzen
CEO, Vantiq

Joe Grace
CEO, Grace and Associates Inc.

T-Mobile
Vice President, Data & AI, T-Mobile

Matthew Synborski
CTO, ResilienX

Dr. Stephen Dawe
CIO, City of Opelika

Greg Hayward
CEO, Trackable Health AI

Dr. Ryan Vega
CHO, Vantiq

John Sviokla
Co-Founder, GAI Insights

Robert Brydia
Division Head, Texas A&M Transportation Institute

Toby Eduardo Redshaw
CEO, Verus Advisory

Paul Butterworth
CTO, Vantiq

Gary Gregory
Chairman & CEO, Neurosync

Brett Rudenstein
VP Sales Engineering and Services, Vantiq

Eric Jackson Jr., MD, MBA
Former CIO, Nemours Children's Health

Hassan Zahwa, Ph.D.
Managing Director, Huron

Gwanghoon Seo
CEO and Co-Founder, Toads

Jack Lee
CEO and founder, Zeroweb

Jim Rice
VP Public Sector, Vantiq

David Stone
CEO & Co-founder, TransformativeMed

Here's what you can expect
when attending a Vantiq AI Summit

"It was such a good blend of people from the industry who really understand Vantiq's technology. I loved seeing the solutions in action — as we heard a few times, demos are worth a thousand words. Seeing it all in live was great."

Laura Baker | Senior Manager of Government and Public Sector Deloitte Consulting

"Vantiq's commitment to helping us succeed has been exceptional. Their team didn't just sell us a product; they partnered with us to ensure we could leverage it fully, offering invaluable development support and training."

Dr. Stephen Dawe
CIO, City of Opelika, AL

"It's exciting to have a business like Vantiq coming to Australia and exploring how their digital and AI solutions can enhance the services we provide to the community."

JON RAVEN
MAYOR
LOGAN CITY COUNCIL

"The event today was perfect. Everyone spoke really well — it was informative, and I think a lot of people now have a much clearer picture of what Vantiq is doing."

Michael Johnson

"The Vantiq AI Summit was exciting—diving into the capabilities of Vantiq's GenAI platform, seeing their latest innovations, and exploring how these technologies can enhance our cybersecurity efforts."

MARY SEBASTIN
REGIONAL SALES LEADER CYBERSECURITY L
HONEYWELL

"A lot of companies say they're global, but the Vantiq AI Summit truly is — we've met people from South America, Europe and Asia. It's been a great mix of learning and networking, and it's been really fun getting to know the broader Vantiq family."

JT Mudge
Solutions Lead | Project Manager
productOps, Inc.

Agenda at a glance

8:30 AM - REGISTRATION & NETWORKING

9:00 AM
Welcome

Grace & Associates

Kickoff and show overview

Joe Grace MC - CEO, Grace and Associates Inc.

9:05 AM
Keynote: A new era of software

VANTIQ

Opening Keynote

Marty Sprinzen Co-Founder & CEO, Vantiq

9:35 AM
Founder's panel: A new era of software

VANTIQ

Vantiq founders Marty Sprinzen and Paul Butterworth reveal why real-time intelligence is no longer optional—and how Vantiq makes it possible

Marty Sprinzen
Co-Founder & CEO, Vantiq

Paul Butterworth
Co-Founder & CTO, Vantiq

9:50 AM
Live demo: Real-time intelligence in action

VANTIQ

See how Vantiq enables systems that respond and adapt in real-time across live scenarios

Brett Rudenstein - Vice President Sales Engineering and Services, Vantiq

---

10:05 AM
Real-time intelligence for safer streets

Texas A&M Transportation Institute

See how Texas A&M is leveraging real-time intelligence to orchestrate data from vehicles, signals and sensors—preventing accidents, reducing traffic and improving urban mobility

Robert Brydia - Division Head, Texas A&M Transportation Institute

---

10:25 AM - BREAK

10:45 AM
Real-time intelligence for force readiness

TrackableHealth

See how Trackable Health is leveraging real-time intellgence to drive warfighter wellness, resilience and advance force readiness

Greg Hayward - CEO & Founder, Trackable Health AI

11:05 AM
Real-time intelligence for elder care

ZEROWEB

See how Zeroweb is redefining their product to leverage real-time intelligence to transform elder-care in South Korea

Jack Lee - CEO and Founder, Zeroweb

11:25 AM
Real-time intelligence for maritime maintenance

TOADS
We innovate the ocean industry

See how Toads is using real-time intelligence to predict equipment failures on ships—cutting downtime, improving safety and transforming maritime operations

Gwanghoon Seo - CEO and Co-Founder, Toads

11:45 AM - NETWORKING LUNCH

Agenda at a glance

Time	Session		Description
1:00 PM Real-time intelligence for public safety	CITY OF OPELIKA		See how Opelika uses real-time intelligence to enable vandalism detection, rapid police dispatch and automated city operations—cutting crime and saving costs **Dr. Stephen Dawe** - CIO, City of Opelika
1:20 PM Real-time intelligence for hospital operations Huron	HURON		See how Huron is leveraging real-time intelligence to enhance hospital operations through advanced intelligent operations centers **Hassan Zahwa, Ph.D** - Managing Director, Huron
1:40 PM Real-time intelligence for safer hospitals	NEMOURS CHILDREN'S HEALTH.		See how Nemours Childrens Health System is leveraging real-time intelligence to improve the quality and safety of healthcare delivery **Eric Jackson Jr., MD, MBA** - Former CIO, Nemours Children's Health System
2:00 PM Real-time intelligence & drones	RESILIENX		See how ResilienX is leveraging real-time intelligence to monitor drone health, predict failures and keep autonomous systems mission-ready **Matthew Synborski** - CTO, ResilienX

2:20 PM - BREAK

Time	Session		Description
2:40 PM Real-time intelligence for enhanced clinical decision support	NEUROSYNC		See how NeuroSync is leveraging real-time intelligence to ehance clincal decision support **Gary Gregory** - Chairman & CEO, NeuroSync
3:00 PM Real-time intelligence for smarter patient care	TransformativeMed ORACLE Partner		See how TransformativeMed is reducing time spent in the EHR by delivering real-time, context-aware data to clinicians—empowering faster decisions, streamlined work-flows and more time for direct patient care **David Stone** - CEO & Co-founder, TransformativeMed
3:20 PM Telco at the edge: Powering real-time AI with 5G	T··Mobile·		Learn how T-Mobile is enabling real-time AI through ultra-low latency computing and simplified integration across hardware, software, and network layers—unlocking scalable AI services at the edge **Jeffrey Frantz** - Vice President, Data & AI, T-Mobile

Time	Session	Description
3:40 PM From hype to impact: The real state of AI	Verus Advisory GAI Insights GA Grace & Associates	AI is moving from headlines to real-world results. Hear from industry leaders on what's working, what's next and where the real impact is happening **Paul Butterworth** Co-Founder & CEO, Vantiq **Toby Eduardo Redshaw** CEO, Verus Advisory **John Sviokla** Co-Founder, GAI Insights **Joe Grace** CEO, Grace and Associates Inc.

Time	Session		Description
4:15 PM Seconds matter: Real-time intelligence for countrywide disaster response	NTT DATA		See how NTT Data D-Resilio, is leveraging real-time intelligence to transform disaster management and emergency response—saving lives across Japan
4:45 PM Closing remarks	VANTIQ		**Marty Sprinzen** - Co-Founder & CEO, Vantiq

5:00-6:30 PM - NETWORKING RECEPTION
