Here's what you can expect when attending a Vantiq AI Summit

"It was such a good blend of people from the industry who really understand Vantiq's technology. I loved seeing the solutions in action — as we heard a few times, demos are worth a thousand words. Seeing it all in live was great."

"Vantiq's commitment to helping us succeed has been exceptional. Their team didn't just sell us a product; they partnered with us to ensure we could leverage it fully, offering invaluable development support and training."

"It's exciting to have a business like Vantiq coming to Australia and exploring how their digital and AI solutions can enhance the services we provide to the community."

"The event today was perfect. Everyone spoke really well — it was informative, and I think a lot of people now have a much clearer picture of what Vantiq is doing."

"The Vantiq AI Summit was exciting—diving into the capabilities of Vantiq's GenAI platform, seeing their latest innovations, and exploring how these technologies can enhance our cybersecurity efforts."

"A lot of companies say they're global, but the Vantiq AI Summit truly is — we've met people from South America, Europe and Asia. It's been a great mix of learning and networking, and it's been really fun getting to know the broader Vantiq family."
